

**WORLDWIDE  
PATENTED !!**

# WATER LIGHT GRAFFITI

BY

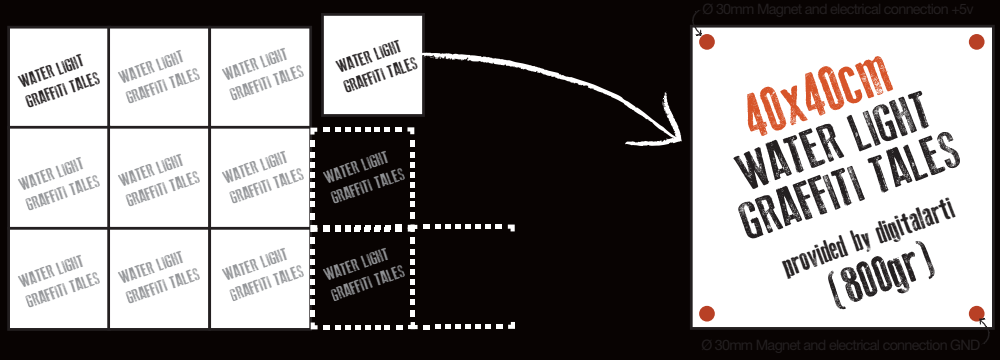

**LET'S PLAY !**

**1 CREATE** Compose your wall by assembling the Water Light Graffiti tales. You choose the length and the width ( multiples of 40cm) to create your custom-made wall, exactly the dimensions you decided.

**2 INSTALL** Fix the WLG tiles 60cm from the floor with the magnet system

**3 PLAY!** Let's play now!! Anything damp becomes a tool to drive or write : a sponge, a brush, a water gun, or even a water atomizer to act as an eco-friendly graffiti artist.

**YEAH !**
